

Would you be interested in using an OKPRN mobile app that would provide clinical question/idea collection capability, OKPRN announcements or notifications, research data pull and brief survey features (e.g., electronic card studies), and peer networking/communication options? What kind of mobile device do you have: iPhone or Android?

(Answers elicited in 2014, May)

1. No. I don't think I would use precious time and resources coming up with an OKPRN phone app. For the poll, I use android.
2. No. iPhone
3. Sure, iPhone
4. No.
5. Probably. Not sure how often I would use it.
6. iPhone. Yes
